TelePacific COMMUNICATIONS®   **Mobility**

– **Exchange ActiveSync (EAS)** – Provides push synchronization of contacts, calendars, tasks, and email between ActiveSync-enabled servers and devices (iOS, Android, Windows, BlackBerry).

Microsoft®
Exchange
Activesync®

– **BlackBerry Enterprise Server (BES)** – Access to your email, calendar, contacts, and tasks on your BlackBerry device without the upfront cost associated with owning a BES solution.

BlackBerry

Bring you own Device (BYOD): Conduct business anywhere with secure instant access to Hosted Exchange and other cloud services through mobile devices.

Centralized management and control over sensitive data, regardless of device

Mobile Device Manager – The Added Value

Compliance & Security

Feature	MDM	ActiveSync/BES
Over the Air (OTA) Activation	x	x
Remote Wipe	x	x
Secure Connection	x	x
Automated Security Policies	x	
Cross Platform Support	x	
Corporate Application Management	x	
Robust Reporting	x	
Device Monitoring	x	
Alert Notification	x	

Added level of security for sensitive company data

Encryption

- What is it?

    - Converting data into a form that cannot be easily understood by unauthorized people

    - Passcodes are used to read an email to prevent hackers from intercepting and reading private communications

- Policy Based Encryption

    - Encrypts specific emails based on use-defined policy

- Secure Email Encryption

   - Encrypts and decrypts all email for intended recipients

Provides an additional level of security to meet industry specific compliance requirements

Archiving

- What is it?

  - A systematic approach to saving and protecting the data contained in Email messages so it can be accessed quickly at a later date

- Discovery Archiving

  - Storage for legal holds, audit and eDiscovery

- Advanced Financial Compliance Archiving

  - Establish and enforce email policies for SEC and FINRA-regulated firms + GLBA, SOX, HIPPA and other compliance requirements

**sonian**
Cloud Powered Archiving and Search

Securely capture and store all sent and received e-mail messages in a central repository. Messages are indexed for fast searching and meet security and compliance requirements

![TelePacific Communications logo]

Lync IM and Web Conferencing

- Lync IM/Presence

    - Send and receive messages one-on-one or with multiple users

    - Integrated with Outlook

    - Secure (unlike free IM)

- Web Conferencing

    - Provides application, desktop and document sharing with editing and annotation, audio and video sharing

Microsoft® Lync Online

Cloud based enterprise class IM and Web Conferencing services for increased business communications and productivity

![TelePacific Communications logo]
